Do you share project information and would like to use a **FREE** online tool to help you keep project information in one place?

Padlet is a **FREE** online tool that is best described as an online notice board and can be used to post notes on a common page. The notes posted can contain links, videos, images and document files to share with project stakeholders. During this **FREE** one-hour webinar, we'll provide you with an overview of Padlet, and outline why we use it as our go-to resource sharing platform and give you the knowledge and skills for your own project needs.
